DAFFODILS OR NARCISSUS.

Double and Single Varieties, for cultivation in open borders.

BICOLOR EMPRESS, one of the largest and noblest of all Daffodils, rich golden yellow trumpet, with broad white perianth of great substance, bolder and finer than Horsfieldii. 1*s.* 6*d.* each; 15*s.* per doz.

BICOLOR HORSFIELDII (King of Daffodils), a splendid large free-flowering early variety, immense golden yellow trumpet, with white perianth. 1*s.* 3*d.* each; 12*s.* per doz.

BICOLOR LORIFOLIUS EMPEROR, clear golden yellow trumpet, with broad, stout, delicate primrose-coloured perianth. 2*s.* each; 21*s.* per doz.

BIFLORUS (Primrose Peerless), pure white, with yellow cup; a well-known variety, bearing two flowers on the same footstalk. 3*s.* 6*d.* per 100; 8*d.* per doz.

BULBOCODIUM CONSPICUUS (Yellow Hoop Petticoat), a very pretty, distinct, and free-flowering species, of a rich golden yellow, very suitable for pots or edgings. 2*s.* per doz.

INCOMPARABILIS AURANTIUS PLENUS (Butter and Eggs, Double Incomparabilis), large double yellow, interspersed with deep yellow segments. 5*s.* 6*d.* per 100; 1*s.* per doz.

INCOMPARABILIS ALBUS PLENUS AURANTIUS (Eggs and Bacon, Orango Phœnix), very beautiful, large double white flowers, interspersed with rich orange-scarlet segments in the centre, splendid for cutting. 15*s.* per 100; 2*s.* 3*d.* per doz.

INCOMPARABILIS ALBUS PLENUS SULPHUREUS (Codlins and Cream, Sulphur Phœnix), a beautiful double variety of rose-like appearance; flowers pale creamy-white, delicately fragrant; one of the finest of this section. 4*s.* 6*d.* per doz.

MAJOR, trumpet, true, single, large rich deep yellow. 2*s.* 3*d.* per doz.

PSEUDO-NARCISSUS (Common Single Daffodil or Lent Lily), yellow trumpet, sulphur perianth. 3*s.* per 100; 6*d.* per doz.

PSEUDO-TELAMONIUS PLENUS (Common Double Daffodil), large, double, deep-yellow flowers. 3*s.* per 100; 6*d.* per doz.

POETICUS RECURVUS (Pheasant's Eye or Poet's Narcissus), pure white, with red crown, very fragrant, fine for cutting. 3*s.* 6*d.* per 100; 8*d.* per doz.

POETICUS PLENUS (Double White or Gardenia-flowered Narcissus), splendid full double pure white flowers, exceedingly fragrant and free-flowering. 6*s.* 6*d.* per 100; 1*s.* per doz.

JONQUIL NARCISSUS.

The delicate, fragrant, and pretty flowers are extremely valuable for pot culture, but being perfectly hardy may be planted in the open borders, and are extremely useful for cutting.

ALLIUM NEAPOLITANUM.

This very useful variety is quite hardy, producing large heads of pure white flowers; extensively used in Covent Garden Market for Bouquets, &c. One of the earliest of Spring flowers, and forces well. Per dozen, 1*s.* Per 100, 6*s.*

AMARYLLIS.

This deservedly popular family cannot be too highly recommended. The ease with which they are cultivated and the gorgeously beautiful flowers they produce at almost any season, make them most desirable in any collection. By gradually drying the bulbs they can be put to rest at any time during the year, and then when required, if started in a gentle heat they quickly develope their large Lily-like blossoms, which are of various colours, generally embracing crimson, white and red, scarlet, rose-flaked, striped white and crimson, with various shades of colours.

AMARYLLIS, choice selections of good sorts, 3, 4 and 6 guineas per dozen.

AMARYLLIS AULICA.

A magnificent species, producing fine large heads of rich bright crimson flowers, individually of great size and very attractive. Fine bulbs. 2*s.* 6*d.* each. 24*s.* per dozen.

AMARYLLIS BELLADONNA (The Belladonna Lily).

This beautiful hardy bulb is imported early in September; their large handsome blush flowers richly flushed with rosy purple, render them extremely useful for greenhouse and conservatory decoration. 4*s.*, 6*s.* and 9*s.* per dozen, 30*s.*, 40*s.* and 60*s.* per 100.

ANEMONES.

	Per 100—*s.*	*d.*
Double Scarlet, fine for massing	6	6
,, **Blue** ,, ,, beds	7	6
,, **Finest Mixed**, all colours	4	6
Single Scarlet, fine for beds	3	0
,, **Finest Mixed**, all colours	5	0

Superfine named, in 25 new and choice varieties, per 100, 12*s.* 6*d.*

GIANT FRENCH DOUBLE CHRYSANTHEMUM-FLOWERED.

This fine section differs from, and is superior to, the Dutch varieties.

Extra choice mixed, per dozen, 4*s.*; per 100, 28*s.*

VARIOUS SPECIES.

	Per 100. *s.*	*d.*	Per doz. *s.*	*d.*
APPENINA (*The Blue Wood Anemone*), splendid blue early-flowering variety	10	6	1	6
FULGENS, a very beautiful variety. The flowers are of a dazzling scarlet colour, with jet black centre, English grown	10	0	2	0
FULGENS FLORE PLENO, a fine double variety of the preceding, English grown	7	6	1	3

SARDENSIS, a very pretty new species, with dark blue flowers and small white eye .. .. 10*s.* 6*d.*, 12*s.* 6*d.* & 15*s.* ,, ,,

LILY OF THE VALLEY.

(CONVALLARIA MAJALIS.)

These are imported and supplied in strong clumps towards the end of the year, expressly for forcing.

		s.	*d.*
Prepared clumps for early forcing	per dozen	12*s.* & 15	0
Single selected crowns	per 100	6*s.*	

CYCLAMEN PERSICUM.

Too much can scarcely be said in favour of the superb varieties of this plant, of which the old *C. persicum* is the type, whether they are regarded as objects for the ornamentation of the greenhouse or conservatory, or for table decoration, for which their compact floriferous character eminently fits them. The flowers are also extremely useful for bouquets, and when plucked, if kept in water, they will last in freshness and beauty some weeks.

30*s.*, 42*s.*, and 60*s.*, per dozen, according to the varieties and size of bulbs.

Cyclamen coum, bright red	per doz.	12*s.*
Cyclamen europæum, red, sweet scented	per doz.	4*s.*

DIELYTRA SPECTABILIS.

Strong clumps of this graceful and well known plant for early forcing.

Price 6s. and 9s. per dozen.

FREESIAS.

The chaste and fragrant flowers of these beautiful Cape bulbs render them of the greatest value for decorative purposes, especially where cut flowers are required during the winter months; they grow about 9 inches high, producing 6 to 8 flowers, the fragrance of which is most delightful. They can be easily forced, and should be planted 6 to 12 bulbs in a pot.

	Per doz.—*s.*	*d*
HYBRIDA, (new) a beautiful free flowering hybrid, obtained by crossing *F. refracta alba* and *F. Leichtlini*, deliciously scented	5	0
Leichtlini, clear pale yellow, with a bright orange blotch on the lower petal, fragrant ..	2	6
refracta alba (*odorata*), pure white, delightfully fragrant	2	6

IRIS.

ENGLISH (I. anglica or Xiphioides).

For brilliancy of colour and fine vigorous foliage the English Iris takes rank amongst the handsomest of flowering bulbs. They greatly resemble the Spanish Iris in style of growth, attaining a height of about 2 feet, and produce, during June and July, a succession of large and beautiful flowers.

	s.	*d.*
Assortment of 100 Bulbs in 25 named varieties	12	6
,, 50 ,, 25 ,, ,, ...	7	0
,, 25 ,, 12 ,, ,, ...	4	0

SPIRÆAS.

SPIRÆA ASTILBOIDES.

One of the most handsome of hardy herbaceous perennials, certificated both by the Royal Horticultural and Royal Botanic Societies. The inflorescence consists of compound feathery branches of elegant white flowers. It will be a charming and indispensable plant for pot culture, its beautiful flowers being produced in the greatest profusion. 5*s.* each.

SPIRÆA (HOTEIA) JAPONICA.

Cannot be too highly appreciated as a decorative plant for early forcing, its pretty erect shining green foliage, surmounted by numerous beautiful and graceful panicles of white inflorescence, giving the whole plant an elegant appearance, and rendering it at once most pleasing and useful for decorative purposes.

Strong imported clumps, 6s. and 9s. per dozen.

SPIRÆA PALMATA.

The bright pink Spiræa, one of the most beautiful hardy plants in cultivation, producing lovely broad corymbs of pink flowers. It is a native of Japan. 6*s.* and 9*s.* per dozen.

SPIRÆA PALMATA ALBA.

A counterpart of *S. palmata*, except in the colour of the flowers, which are pure white, a very beautiful and elegant variety. 3*s.* 6*d.* and 5*s.* each.

DOUBLE TUBEROSES.

(POLIANTHES TUBEROSA.)

The perfectly double flowers of *Polianthes* are well known for their delicious fragrance and pearly whiteness, being admirably adapted for Button-holes, Bouquets, &c.; indeed are of the greatest value wherever cut flowers are required. By successional plantings these lovely flowers may be had all through the summer and autumn. They should be potted in rich loamy soil and started in a good bottom heat, being afterwards grown on in a stove, with plenty of moisture.

DOUBLE AMERICAN.

Good bulbs, 4*s*. per dozen; 25*s*. per 100.

Selected bulbs, 5*s*. per dozen; 30*s*. per 100.

DOUBLE AMERICAN.

"THE PEARL."

5*s*. per dozen; 30*s*. per 100.

The above can be supplied about the end of December.

AFRICAN.

These can be supplied in fine bulbs in November.

4*s*. per dozen; 20*s*. and 25*s*. per 100.

EUCHARIS MASTERSII.

A new and most desirable acquisition, the flowers being of snowy whiteness, freely produced and delicately scented. It has been introduced from the United States of Colombia. 2*s.* 6*d.* each, 24*s.* per dozen.

	Each.	Per dozen.
EUCHARIS AMAZONICA	1*s.* 6*d.* & 2*s.* 6*d.*	15*s.* & 24*s.*
—— **CANDIDA**	1*s.* & 1*s.* 6*d.*	10*s.* & 15*s.*
—— **SANDERII**	2*s.* 6*d.* & 3*s.* 6*d.*	24*s.* & 36*s.*

The pure white flowers of these beautiful plants are admirably adapted for cutting.

GLADIOLUS.

(HYBRIDS OF GANDAVENSIS.)

There are few flowers more showy and beautiful than the Gladiolus, and the varieties of the *Gandavensis* section are perfectly hardy and easily grown, whilst their erect and stately growth, and long spikes of flowers, developing themselves successively, never fail to win admirers.

To facilitate the cultivation of this highly decorative plant, a few remarks may be necessary to some:—

The best and safest time for planting is from the beginning of April to the end of May, when a continuous bloom may be assured from July to September.

Soil is not much a point for consideration, so long as it is not stiff and consolidated; but it is important that it should be deeply dug previous to planting.

Large bulbs should be planted from 3 to 4 inches, and smaller bulbs 2 inches deep.

During excessively dry weather, copious waterings are recommended.

When any bulbs show signs of growth before the time mentioned above, they should be potted and kept in a cool frame until the proper season for planting out.

CHOICE GLADIOLUS.

This beautiful tribe of plants should be largely planted everywhere, because—

They are perfectly hardy and easily grown.

They are gorgeously beautiful.

Their handsome spikes of flowers are useful for decorating vases and epergnes.

Their flower buds expand and last a long time when cut and placed in water.

They are charming when introduced into orders among Evergreens.

Planted by hundreds among Rhododendrons, they brighten and enliven the bede during the summer and autumn months.

Orders are booked throughout the year at the following prices, and the bulbs supplied in January, February or March.

100	in 12	Choice named varieties	50s.

BEGONIAS.

HANDSOME-FLOWERED TUBEROUS-ROOTED SECTION.

The immense size to which the flowers of this popular race of plants have now attained considerably enhances their value for decorative and bedding purposes; indeed, it can scarcely be over-estimated. Of nearly every shade of colour, from deepest crimson scarlet to white, the blooms are produced in the utmost profusion, thus rendering them extremely showy and attractive. Selections of good single flowering varieties can be made by Mr. W. B. at 18*s*., 30*s*., and 42*s*. per dozen.

Varieties with double flowers, 3s. 6d., 5s., and 7s. 6d. each.

MIXED SEEDLINGS—UNNAMED.

Having been raised from the best varieties, among these will be found many very beautiful kinds of every shade of colour, and from the low price at which they are offered, are admirably adapted for planting largely in beds and borders. Blooming tubers, 6*s*. and 9*s*. per dozen; 2 and 3 guineas per 100.

BEGONIA BALMISIANA.

This very distiuct Begonia has been imported from Mexico. It is a handsome flowering bulbous species and freely produces quantities of large and attractive flesh-coloured flowers of good substance. The succulent stems are dark-red in colour, the leaves being thick and fleshy, with dentate margins. 3*s.* 6*d.*

BEGONIA GLOIRE DE SCEAUX.

A hybrid winter-flowering bulbous variety, raised between *B. socotrana* and *B. subpetala*. The plant is of compact habit and most proliferous, the flowers being well shaped and of a beautiful bright rose colour. The glabrous leaves are cordiform and of a dark metallic green. Flowering as this does from the beginning of January to the end of April, it will be found a very desirable acquisition to our winter-flowering plants. 10*s.* 6*d.*

BEGONIAS.

VARIEGATED-FOLIAGED SECTION.

Selections of good varieties made by Mr. W. B. at 30s. 42s. and 60s. per dozen.

For descriptions and prices, *vide* Mr. W. B.'s Plant Catalogue.

ACHIMENES.

VIOLETTA, a very pretty and free-flowering new variety of vigorous growth, producing an abundance of rich violet-purple flowers, the centre of each lobe and the mouth of the throat being very darkly veined. 5*s.*

Good selections made at 6*s.*, 9*s. and* 12*s. per dozen, according to sorts.*

Choice sorts, 18*s. and* 30*s. per dozen, according to sorts.*

GESNERAS (NÆGELIAS).

The value of Gesneras as decorative plants can scarcely be over-estimated. Most of them have rich velvet-like foliage, which, in the respective kinds, varies from green to crimson. If only grown for the foliage they are very attractive, but they produce splendid pyramidal spikes of blossom, which are extremely handsome. Originally the principal colour was orange-scarlet; now, as the result of fertilisation, there are various colours and shades, added to which the spotting on the flowers of some of the varieties is extremely pretty. Selections of good varieties at 24*s.* and 30*s.* per dozen, according to sorts.

GESNERAS, see also page 25.

NEW HYBRID GESNERAS.

LE PRODIGUE, a distinct variety with handsome foliage; the flowers, which are fringed, being of a rose colour shaded with purple, fading towards the edge into rosy-salmon. 5*s.*

MADAME HEINE, flowers rich violet-purple, centre white shaded with rose and spotted with purple, interior of throat orange-yellow with crimson spots. The lower flowers often produce a number of petaloid segments, thus giving to the bloom a semi-double appearance. 5*s.*

MADAME JEHENNE, a variety of vigorous growth, producing large showy flowers of a dark rosy-violet colour, resembling in shape those of an Achimenes. 5*s.*

PYRAMIDAL, a vigorous growing variety, with rose coloured flowers, shaded with purple; the throat is golden-yellow with small crimson spots. 5*s.*

SOUVENIR DE MADAME JOIGNOT, this variety has handsome bronze-green leaves, the Achimene-like flowers, which are abundantly produced, being of a rich carmine-purple colour. 5*s.*

NEW AND CHOICE GLOXINIAS.

The handsome and showy flowers of these beautiful bulbous plants, render them of the greatest value for the decoration of Stoves and Conservatories. Of easy culture, they can, with judicious treatment, be had in bloom at almost any season of the year, their attractive flowers being of large size and good shape, admirably adapted for cutting. The colours are most varied, every hue being pure and distinct, while some of the kinds are spotted and maculated in a most pleasing manner.

Choice selections made by Mr. W. B. at 18s., 30s. and 42s. per dozen, according to sorts.

New Varieties, 5s. each.

Good blooming tubers, unnamed, of various colours, raised from handsome varieties,

9s., 12s. and 15s. per dozen, 35s., 50s. and 70s. per 100.

GLOXINIA INSIGNIS, this distinct variety produces its flowers during the autumn and winter; colour bluish lilac, marked with a large crimson blotch at the base of the tube. 2*s.* 6*d.*

MACULATA SCEPTRUM, a magnificent hybrid, with extra large erect cordate foliage; it produces a rigid terminal inflorescence, exceeding 20 inches in height, which bears majestically its large, clear lilac, well-formed blooms. 2*s.* 6*d.*

TYDÆAS.

These can be cultivated so as to produce an abundance of bloom throughout the winter, their flowering season principally depending on the time of year their tubers are started into growth. With a little management a succession of blooming plants can be had nearly throughout the year. 18*s.*, 24*s.*, 30*s.* and 42*s.* per dozen, according to sorts.

HÆMANTHUS KALBREYERII.

A magnificent species from the West Coast of Africa. Its showy inflorescence is of immense size, a single head often producing upwards of a hundred of its attractive flowers, which are of a bright reddish vermilion colour. The filaments are brightly coloured, while the golden anthers have a pretty effect in contrast with the mass of glowing colour. *3s. 6d.* and *5s.* each.

FLOWER SEEDS FOR AUTUMN SOWING.

	Per pkt.—s.	d.
ABUTILON, new varieties, extra choice ..	1	0
Alyssum maritimum (sweet), white ..	0	3
Auricula, Alpine, very fine strain.. 1*s.* &	1	6
BARTONIA AUREA, orange	0	3
BEGONIA HYBRIDA GIGANTEA, the flowers, which are produced in great abundance, are of gigantic size, measuring 4 to 5 inches, and of various and attractive colours 1*s.* 6*d.* &	2	6
Calandrinia umbellata, crimson	0	6
CALCEOLARIA, HERBACEOUS, Bull's Prize Strain .. .. 1*s.* 6*d.* &	2	6
Calliopsis tinctoria, yellow and brown ..	0	3
Candytuft, dark crimson	0	3
—— Tom Thumb, white	0	6
CINERARIA, extra choice mixed 1*s.* 6*d.* &	2	6
Collinsia bicolor, purple and white ..	0	3
—— grandiflora, purple	0	3
Cyclamen persicum, prize strain, finest, mixed colours .. .. 1*s.* 6*d.* &	2	6
—— —— giganteum *(grandiflorum)* ..	2	6
Daisy, double, extra choice mixed ..	0	6
Erysimum arkansanum, yellow	0	3
Eschscholtzia californica, yellow.. ..	0	3
—— crocea, orange..	0	3
Gilea tricolor, white, lilac and purple ..	0	3
—— —— alba, white	0	3
—— —— rosea splendens, rose	0	3
GLOXINIA, extra choice hybridised, 1*s.* 6*d.* &	2	6
Godetia rosea alba, rose and white ..	0	3
—— The Bride, white and crimson ..	0	3
Kaulfussia amelloides, blue . ..	0	3
Larkspur, Dwarf Rocket, finest mixed ..	0	3
—— tall stock-flowered, finest mixed ..	0	3
LAVATERA ARBOREA VARIEGATA ..	1	0
Leptosiphon densiflorus, lilac	0	3
—— —— albus, white	0	3
Lobelia erinus speciosa	0	6
—— Crystal Palace compacta	1	0
Lupinus nanus, blue and white	0	3

	Per pkt.—s.	d.
Mignonette, yellow and brown	0	3
—— large-flowered, yellow and brown ..	0	3
Myosotis alpestris	0	3
—— dissitiflora	1	0
—— sylvatica	0	6
Nemophila atomaria, white, spotted ..	0	3
—— insignis, blue	0	3
PANSY, THE ASHBURNHAM STRAIN	2	6
PEAS, SWEET (new), Bronze Prince ..	1	0
—— —— (——) Lottie Eckford	1	0
—— —— (——) Queen of the Isles ..	1	0
—— —— (——) Eckford's mixed ..	1	0
PHACELIA CAMPANULARIA, one of the most lovely blue flowering annuals known. The flowers, which are borne in the greatest profusion, being of the most brilliant blue colour imaginable	1	0
Platystemon californicum, yellow ..	0	3
Polyanthus, choice mixed	0	6
—— gold laced	1	0
Primula cortusoides, rich rosy purple ..	0	6
—— japonica	0	6
—— **SINENSIS FIMBRIATA**, *vide* inside of cover.		
Pyrethrum, Golden Feather, yellow foliage	0	6
Saponaria calabrica, rose	0	3
—— —— alba, white	0	3
Silene pendula compacta, pink	0	6
—— —— —— alba, white	0	6
Stock, Intermediate, scarlet	0	6
—— —— purple	0	6
—— —— white	0	6
—— East Lothian	1	0
—— Virginian, red..	0	3
—— —— white	0	3
Venus' Looking Glass, blue	0	3
—— —— white	0	3
Viscaria oculata, rose, dark eye	0	3
Wallflower, Double German, choice mixed	1	0
—— Harbinger, fine dark red	0	6
Whitlavia grandiflora, violet	0	3

Mr. WILLIAM BULL'S SEED CATALOGUE,

Published in January, contains descriptions and prices of all the most desirable novelties in Flower Seeds, saved from extra fine carefully selected stocks. Also descriptions and prices of the best and most popular seeds that can be offered for the Kitchen Garden, Flower Garden, Conservatory, &c., &c.

SEED FROM PRIZE STRAINS.

PRIMULA SINENSIS.

PRIMULA SINENSIS FIMBRIATA MONT BLANC.—Unrivalled in the pureness of its snowy white, densely fringed flowers, which are of great size and substance. 2*s.* 6*d.* per packet.

PRIMULA SINENSIS FIMBRIATA SPLENDIDA.—The flowers of this magnificent strain are a deep crimson, beautifully fringed, and of immense size and substance. 2*s.* 6*d.* per packet.

PRIMULA SINENSIS FIMBRIATA VIOLACEA.—A distinct and beautiful novelty, of good habit and compact growth. The flowers are rosy lilac, prettily margined with white; deep yellow eye. 2*s.* 6*d.* per packet.

Mr. W. Bull has great confidence in offering the above unrivalled strains of Chinese Primulas. They are unsurpassed in the great breadth and substance of their beautifully fringed flowers, which are borne in immense heads, growing well above the foliage. They are of fine habit, and can be highly recommended.

PRIMULA SINENSIS FIMBRIATA ALBA
PRIMULA SINENSIS FIMBRIATA RUBRA
PRIMULA SINENSIS FIMBRIATA FILICIFOLIA ALBA
PRIMULA SINENSIS FIMBRIATA FILICIFOLIA RUBRA

Extra Choice.

These varieties possess most elegantly fringed edges, and are offered with the greatest confidence. 1*s.* 6*d.* and 2*s.* 6*d.* per packet.

PRIMULA SINENSIS FIMBRIATA "Bull's Premier Mixture." Contains all the new and most distinct colours and varieties, and is of unusual excellence. 1*s.* 6*d.* and 2*s.* 6*d.* per packet.

PRIMULA SINENSIS FIMBRIATA ALBA OCULATA LUTEA.—A distinct variety; splendidly fringed white flower, with large bright yellow centre, which extends to half the flower; a remarkably handsome variety. 2*s.* 6*d.* per packet.

PRIMULA SINENSIS FIMBRIATA KERMESINA SPLENDENS.—A fine variety, with rich scarlet-carmine coloured flowers. 1*s.* 6*d.* and 2*s.* 6*d.* per packet.

PRIMULA SINENSIS FIMBRIATA STRIATIFLORA.—White striped with rosy carmine; splendid variety. 1*s.* 6*d.* and 2*s.* 6*d.* per packet.

PRIMULA SINENSIS FIMBRIATA ALBA FL. PL.
PRIMULA SINENSIS FIMBRIATA ROSEA FL. PL.
PRIMULA SINENSIS FIMB. KERMESINA SPLENDENS FL. PL.

These double Primulas are a valuable acquisition, especially to cut from, as they do not drop their flowers like the single varieties. 2*s.* 6*d.* and 3*s.* 6*d.* per packet.
